## HOW IT WORKS

On the day of your event, we'll message you with our estimated time of arrival. We usually arrive around 2 hours before service, and all details are agreed in advance to ensure everything works perfectly for your needs.

For our Afternoon Tea service, the setup and service style fully depend on your chosen package and preferred presentation.

We can arrange a dedicated serving area or set elegant tiered stands directly on guest tables. All selected crockery, cutlery, and display elements are included.

When service begins, we welcome your guests, present the afternoon tea, explain the menu, and ensure tea is poured throughout the event for a smooth and enjoyable experience.

Once service is finished, we clean the area we've been working in and leave it in the same condition as before we arrived.

## PAYMENT

To secure your booking, we require a 20% deposit.

The remaining amount can be paid in a way that suits you — we're happy to break payments down into monthly instalments if needed.

The full balance must be paid no later than one week before the event.

## PRICE

Price depends on several factors: date, location, menu choices, and number of guests.  
Prices start from £11.95 + VAT.
